REPORT FORTHCOMING

British Official Press Bureau  
Offers No Objection to  
Publication.

#### GRAND DUKE NICHOLAS.

Russian Commander  
Operating in Galicia.

#### REVOKES POLISH AUTONOMY

Grand Duke Nicholas Said to Have Taken Action.

Berlin, Sept. 30. (via wireless to Saville, L. I.)—Information made public in Berlin declares the commander-in-chief of the Russian forces, Grand Duke Nicholas, has revoked the government's promise of autonomy for Poland, giving as his reason the fact that the Polish riflemen fought on the Austrian side in the battle of Lemberg.

It is declared here in this same connection that Emperor Nicholas' manifesto to the Poles was worthless because it was given out without his signature.

### ATTACKS FIRST LINE OF ANTWERP DEFENSE

German Artillery Begins Bombardment of Lierre.

Amsterdam, via London, Sept. 30.—The Germans have begun their attack on the first line of defense of Antwerp, according to dispatches received by the Amsterdam papers.

Mol, which is an important railway junction near the Dutch border, was occupied by the Germans Sunday and Tuesday the Germans, who again occupied Malines, began a bombardment of Lierre, directly in front of Antwerp.

They also continued their bombardment of Forts Wael and St. Catharine. It is believed heavy Austrian artillery is being used.

Lierre, according to a message to the Handelsblad, has been under shell fire. The people at first hid in the cellars, but subsequently fled to Antwerp, being joined by fugitives from the surrounding villages.

It is reported that many houses have been destroyed and some of the inhabitants killed and wounded. One shell fell on a hospital, killing nine persons.

#### FOOD SCARCE IN BRUSSELS

Germans Find It Difficult to Feed Population.

London, Sept. 30.—The scarcity of food in Brussels has raised a grave problem, according to R. C. Hawkin, who has returned from Belgium, where he completed arrangements to transfer a number of wounded Belgian soldiers to England.

"The situation in Brussels is one of great uncertainty," said Mr. Hawkin. "There is the gravest danger of starvation. Food is scarce and 180,000 persons are applying for rations which the German administration is finding it difficult to supply. There is the further danger that the workmen of the city may rise in revolt."

Mr. Hawkin was impressed by the spirit of the Belgian troops at Antwerp.

#### ARTISTIC BEAUTY IS GONE

Architect Says Rheims Cathedral Cannot Be Restored.

Paris, Sept. 30.—The artistic beauty of the cathedral of Rheims, which suffered in the German bombardment of that town, never can be restored, in the opinion of Whitney Warren, the New York architect, who has returned from Rheims, where he made a thorough inspection of the famous structure. The result of his observations will be communicated to Myron T. Herrick, American ambassador to France.

#### Special to Dispatch:

Rome, Sept. 30, 11:55 A. M.—Italy today took what is generally accepted as the first step leading to an open break with Austria. The Italian ambassador at Vienna was instructed formally and most energetically to file a protest against the strewing of mines by Austria in the Adriatic. He was directed to demand that the Austrian government immediately discontinue such practice.

### FIGHTING ON RIGHT WING IN FRANCE

Berlin, Sept. 30, 11:55 A. M.—A report given out at army headquarters today says: "There has been fighting on our right wing in France, but not decisive. The center is quiet. The French advances in the vicinity of Verdun and Toul were renewed."

### GERMANS REPULSED WITH HEAVY LOSSES

#### Special to The Dispatch:

London, Sept. 30, 2:55 P. M.—According to the official bulletin of the French war office, the turning movement of the Allies left wing north of the Somme river, is developing rapidly. No one knows except those on the ground just how the great siege battle of the Aisne is progressing, but there are many indications that its nineteenth day may be witnessing a stupendous and decisive struggle in the valley of the Somme. Between the Rivers Oise and the Aisne the Germans have delivered a vigorous attack on Tracy-Lemont, northeast of the Forest of Aigue, which has been repulsed with heavy losses.

#### TRAINS COLLIDE IN SUBWAY

Large Number Injured in Accident at New York.

New York, Sept. 30.—One of the most serious accidents in the history of the New York subway, which has been remarkably free from serious mishaps, occurred when two trains collided underneath One Hundred and Forty-second street.

Three men were probably fatally injured. The trains took fire and in fighting the flames twenty firemen were overcome by the dense smoke, which choked the tunnel. One hundred passengers on a train following those which collided were thrown into a panic and fought the guards until the doors were opened. They then walked seven blocks back through the smoke.

The trains which collided were a work train and two passenger cars carrying papers only. The cause of the accident has not been determined.

#### URGES BOERS TO ASSIST

General Botha Says Policy of Neutrality Is Nonsense.

London, Sept. 30.—A dispatch to the Reuter Telegram company from Cape town says that in the course of a speech addressed to 5,000 people at the town of Bank, in the Transvaal, General Louis Botha, premier of South Africa, emphasized the necessity of loyalty to the British empire.

Declaring that the policy of neutrality was absolutely nonsense he hinted that if a German warship came to Durban and imposed a levy of £5,000,000 on them it would help the people very little to say that they were neutral.

General Botha said he was animated through a sincere love of his people and wished to put the position truly before them. There were only two courses open to them: first, loyalty and help, and, second, disloyalty and treason. There was no middle course.

#### GRAIN ELEVATOR IS BURNED

250,000 Bushels of Wheat Is Destroyed in Blaze.

Chicago, Sept. 30.—A quarter of a million bushels of wheat was destroyed by fire here when a five-story elevator belonging to the Cragin Elevator company was burned. The loss was placed at \$350,000. Frank J. Delaney of Minneapolis is president of the company.

#### AUTO CRASH PROVES FATAL

Three Die From Injuries at Portland, Ore.

Portland, Ore., Sept. 30.—Three occupants of an automobile which collided with a street car here died several hours later as a result of their injuries. The dead are W. E. Hendricks, W. H. Thurston and Allen Cook.

### RUSSIANS MARCHING ON CRACOW

Austrian Army Continues Retiring.

#### BIG BATTLE IN SIGHT

Germany Is Said to Have Sent Men to Aid Austria.

London, Sept. 30.—Having invested Przemyśl the Russians are reported to be making their way not only through the Carpathians to sweep across the plains in Northern Hungary, but in strength toward Cracow, which they may reach before the week is out, unless the Austrian field army succeeds in checking the advance. Their arrival at Cracow would be the signal for a battle along the Russian-German frontier.

The Germans are in force at Cracow, where the Austrians would form their extreme right, and they have reinforced their front, extending north of that fortress through Kalisz, Russian Poland, to Thorn, in the province of West Prussia.

Further north they have crossed from East Prussia and have got as far as the River Niemen, where they are reported to have suffered a reverse. The two armies, however, are in close touch right across the country, so that a battle along this extended front cannot long be delayed.

#### Effort to Invade Germany.

The Russian emperor's immense armies will oppose the Germans at every point and will try to invade Germany in more than one district.

Of the operations around Sarajevo nothing has been heard, but the Servians and Montenegrins must be ready soon for a grand assault on that city, which, beyond all others, the Servians would like to occupy.

The Austrians also are being attacked at Cattaro, where, in addition to land operations by the Montenegrins, the French and English fleets are making an effort to reduce the forts.

There is more talk of Italy, Roumania and Turkey becoming involved in the war, but for the moment Italy is being held back by the government. Turkey, it is believed, would like to take a hand in the hope of recovering some of the territory she lost in the Balkan wars, but the moment she does Greece would be in arms against her, which would also be the signal for Roumania to come in.

#### JAPANESE TROOPS ADVANCE

Occupy All the High Ground Outside Tsingtau.

London, Sept. 30.—"The Japanese occupied all the high ground outside Tsingtau overlooking the Germans' main line of defense before noon Monday," says a statement given out by the official news bureau. The communication continues:

"They began an attack on the advanced position four kilometers (two miles and a half) from the enemy's main line at dawn. In a spurt of fierce flame from sea and land they drove the enemy from his position."

#### ORGANIZED IN SIX WEEKS

Canadian Contingent Now on Its Way to Europe.

Quebec, Sept. 30.—The farewell message of Colonel Samuel Hughes, minister of militia, to the Canadian troops now on their way to fight for Britain in continental Europe, was made public. It shows that upwards of 33,000 Canadians of British, French, Irish, Welsh, Scot, American and German ancestry have gone to the colors to fight, Colonel Hughes said in his message to them, "for the preservation of the British empire and the rights and liberties of humanity."

The Canadian contingent sailed secretly recently and the date of its departure still is unknown. Colonel Hughes' message showed that the troops embarked within six weeks from the day they heard the call to arms.

#### WILLIAM SULZER.

Beaten for Nomination  
on Progressive Ticket.

© 1913, by American Press Association.

#### DEFEAT OF SULZER CERTAIN

Fails to Secure Progressive gubernatorial Nomination.

New York, Sept. 30.—With the receipt of about two-thirds of the upstate and practically all of the New York city returns it appeared that James W. Wadsworth, Jr., had won the Republican nomination for United States senator over William M. Calder and that Frederick M. Davenport had defeated former Governor William Sulzer for the Progressive gubernatorial nomination.

Governor Glynn, District Attorney Whitman and Ambassador Gerard continued to add to their pluralities upstate for the Democratic gubernatorial, Republican gubernatorial and Democratic senatorial nominations, respectively.

With a majority of almost 100,000 already established over John A. Hennessy it appeared that the governor will finish probably 125,000 votes ahead of his opponent.

Whitman's plurality probably will be between 50,000 and 75,000. It is believed that Gerard's plurality will exceed 75,000.

### DECLARES AUSTRIANS ABANDON HUNGARY

Petrograd Dispatch Says Russians Are Moving Forward.

London, Sept. 30.—"From the latest events in Galicia and along the Carpathians the conclusion drawn is that the Austrian army has abandoned Hungary to its fate and has left the route to Budapest to be defended by the Hungarian national troops," says the Petrograd correspondent of the Daily Telegraph. The dispatch continues:

"The Austrians continue to retreat before the pursuing Russians and appear to have given up not only the defense of their country in general, but also to have decided to abstain from further independent action. They are simply hurrying on to Cracow to join the right wing of the German army and apparently intend to become a mere component part of the German army."

"Having passed the most difficult part of Ugek pass in the Carpathians, after dislodging the Honveds (landwehr) from three positions, the Russian troops have only some ten or fifteen miles to descend before reaching the Hungarian plateau where there is not a single fortress or fortified position except such as may be hastily improvised in the form of earthworks by the Hungarian defenders."

#### Denies Consul Is Enlisting.

Washington, Sept. 30.—Reports that the British consulate in New York was enlisting men for the army were denied by Sir Cecil Spring-Rice, the British ambassador. He explained, however, that the consul was submitting to medical examination such English subjects as desire to return to England for service.

### AGREES TO STEP DOWN

Carranza Replies to Villa's Demand.

ALSO READY TO FIGHT

Washington Officials Hopeful for an Adjustment.

Mexico City, Sept. 30.—In his reply to the petition of Francisco Villa's generals asking him to resign in favor of Fernando Calderon and thus avoid civil war General Venustiano Carranza says:

"I will gladly take such action if it is ratified by the general conference; if not, I will fight with the same energy that I employed in combating the usurpation of Huerta."

"I will fight reaction and the old regime which appears now to be headed by Villa, who, it may be, is an unwitting tool in this as was Orozco in his fight against Madero."

General Carranza asks General Villa's chiefs to demand the retirement of their leader as commander of the northern division of the army in view of his (Carranza's) willingness to retire if the army so votes.

The general conference of military chiefs will be held Thursday, when the resignation of General Carranza will be considered, although but twenty-six generals will be present. It is believed here that further fighting is unlikely. General Carranza's attitude of abnegation is commended by the local press.

#### OFFICIALS MORE HOPEFUL

Washington Believes Peace Will Prevail in Mexico.

Washington, Sept. 30.—Optimistic dispatches from Consul Silliman and the Brazilian minister at Mexico City caused Secretary Bryan to inform President Wilson that the prospects for restoration of peace in Mexico are brighter than at any time since the overthrow of Madero by Huerta.

In the light of all advices from Mexico City and Chihuahua City, General Villa's headquarters, officials here are confident that the new upheaval threatened by the breach between Villa and Carranza will be averted by the latter's retirement as first chief of the Constitutionalists and the election of Fernando Iglesias Calderon as provisional president.

#### DEFEND BRITAIN'S COURSE

Prominent English Churchmen Reply to German Appeal.

London, Sept. 30.—In reply to the appeal addressed by German theologians to "evangelical Christians abroad," a manifesto was issued here signed by the heads of the Established Church of England and by nonconformist leaders, justifying England's action in connection with the European war.

The manifesto refers to the authors of the German document as "men of whose honesty, capacity and good faith there can be no question," but expresses amazement that such men "should commit themselves to a statement concerning the political causes of the war which depart so strongly from what seems to be plain facts in this grave hour of European history."

Among the signers of the manifesto are the archbishops of Canterbury, York and Armagh, the bishop of London, the Rev. R. J. Campbell, Dr. John Clifford, the Rev. F. B. Mayer, Dr. Campbell Morgan and Dr. Robertson Nicholls.

#### FRENCH ORDER 10,000 HORSES IN TENNESSEE.

Warrensburg, Mo., Sept. 30.

—Orders were placed with a local horse and mule firm by agents of the French government for the delivery of 10,000 cavalry and artillery horses in Memphis, Tenn., as soon as they can be obtained.

REPORT FORTHCOMINGBritish Official Press Bureau  
Offers No Objection to  
Publication.

London, Sept. 30.—A Paris dispatch to the Exchange Telegraph company says:

"It is said here that the German right has been broken entirely and is being pursued by the allies. All the automobiles in Northern France have been requisitioned for the purpose of pursuit."

"Armored motor cars with mitrailleuses also are being used to pursue the retreating enemy."

"The official communication issued at 3 p. m. demonstrates unmistakably that the Germans have been surrounded in the Somme department, the French front extending further east."

"It is stated officially that Peronne has been recaptured."

The foregoing message has been referred to the British official press bureau, which, while not objecting to its publication, takes no responsibility for its correctness.

## Situation Favors Allies.

The announcement issued by both French and British officials declared that there had been no change in the situation, which they previously had reported as favoring the allied army to some extent.

The Germans had strengthened their right at the expense of the rest of their line and many more men to assist them were to be sent from Germany or Belgium. The allies, as is known to all the world, are expecting reinforcements of well trained troops from India, but when they are due has not been disclosed. They may have arrived in time to turn the balance in favor of their side.

A further account of the operations in France up to five days ago was issued by the official press bureau. It pays high tribute to the work of the army, who since the outbreak of the war have succeeded in keeping the special staffs on both sides informed of the movements of the opposing armies.

## FOOD SCARCE IN BRUSSELS

Germans Find It Difficult to Feed

London, Sept. 30.—The scarcity of food in Brussels has raised a grave problem, according to R. C. Hawkin, who has returned from Belgium, where he completed arrangements to transfer a number of wounded Belgian soldiers to England.

SCOTCH GIVE LARGEST  
RATIO OF RECRUITS.

London, Sept. 30.—Figures showing the percentage of recruits enlisted in England, Scotland, Ireland and Wales, as obtained from the director of recruiting and published in the Liverpool Courier, make Scotland appear as the most generous contributor of men. The approximate total number of men raised from Aug. 4 to Sept. 15 was 501,580, the percentage of recruits to the total male population being given as follows:

	Recruits, Pct.
England	396,731 2.41
Scotland	61,444 2.79
Ireland	20,418 .93
Wales	19,966 1.94

## Eight British Officers Slain.

In all the years we have specialized in the display and sale of high-  
grade dress goods we cannot recall an opening exhibit of new styles that ever  
approached this one in completeness—and if you have the slightest wish to choose your  
new dress from an assortment of unmatched styles, this is the logical place to do so.

**LaPorte Dress Goods For Fall**

which we invite you to see at this time is by far the best balanced display the Mills have  
ever produced—in that it contains so few styles that might be termed "extreme." The  
Qualities are superb—the Styles cannot be surpassed—the range of colors and Shades are  
rich and beautiful—yet, in every instance the prices are lower than the most experienced  
dress goods shopper would expect them to be, quality considered. Of the more exclusive  
styles for Blouses, Dresses and Coats that are attracting the most attention, we particu-  
larly urge you to see the beautiful array of Crepe de Chines, Granite Crepes, Crepe Cra-

than those at Our Smart Shop.

**REPORT ON THE  
CITY SCHOOLS**

Enrollment This Year, Says Supt. W.  
C. Cobb, Almost Identical With  
That of Last Year

1,710 STUDENTS IN THE SCHOOLS

The New Principals, Special Teach-  
ers and New Grade Teachers—  
Teachers Record

The enrollment of the city schools  
at the close of the first month is al-  
most identical with that of a year ago  
at the same date, there being one  
more pupil enrolled in the grades this  
year, one less in the high school and  
eight less in the normal training de-  
partment, the latter due to the addi-  
tional requirements imposed by the  
state for entrance to training depart-  
ments this year.

The attendance in all the schools  
for the first month is the highest that  
has ever been attained within the last  
five years being 98.4 per cent.

The enrollment in the various  
wards of the city show but slight  
changes over that of the preceding  
year, the Lowell, and the Harrison  
districts being the ones reporting a  
slight increase.

The record by buildings runs as  
follows:

Whittier School—Enrolled, 213;  
tardies, 5; per cent of attendance,  
98.9.  
Lincoln School—Enrolled, 272;  
tardies, 9; per cent of attendance,  
98.8.  
High School Dept.—Enrolled, 270;  
tardies, 3; per cent of attendance,  
98.3.  
Lowell School—Enrolled, 422; tar-  
dies, 21; per cent of attendance, 98.2.  
Washington School Grades—En-  
rolled, 222; tardies, 10; per cent of  
attendance, 98.  
Harrison School—Enrolled, 308;  
tardies, 7; per cent of attendance,  
97.8.

Report of all schools: Enrolled,  
813 boys, 897 girls, total 1710; cases  
tardiness for month, 55; tardiness by  
teachers, 3; days lost by teachers, 8;  
case of corporal punishment, 5; cases  
of truancy reported, 5; per cent of at-  
tendance, 98.4; number of fire drills,  
16; number of teachers meetings  
held, 4.

The schools this year include a  
number of new principals and spec-  
ial teachers as well as the usual num-  
ber of new grade teachers.

Miss Clara E. Case, who taught the  
8th grade at Austin, Minn., last year,  
is principal at the Lowell school in  
the position vacated by Miss Amy  
Lowey.

Miss Edna Kruger has charge of  
the normal training department hav-  
ing occupied a similar position in the  
Hutchinson and Glencoe, Minn.,  
schools in recent years.

In the high school department Miss  
Blanche Door, a graduate of the Uni-  
versity of Minnesota and a teacher of  
much successful experience in good  
Minnesota state high schools, has  
charge of the advanced English work  
formerly handled by Miss McCoy.

Miss Therese Muller from the Uni-  
versity of Wisconsin, also a high  
school teacher of experience, has  
charge of the work formerly in charge  
of Miss Nichol.

E. A. Kefgen, a graduate of the  
state normal school at Ypsilanti,  
Mich., and of the Cleary Business Un-  
iversity of Ypsilanti, is at the head  
of the commercial department in  
place of C. C. Gray.

Miss Jule O'Brien takes a position  
in mathematics and history in place  
of Miss Moore.

John G. Carroll of Moline, Ill., will

have charge of the manual training  
work and will be on hand to assume  
his duties this week.

Mr. Carroll is a graduate of the  
state normal school of Indiana and  
has had two years of college work  
at Earlham college, Richmond, Ind-  
iana, where he specialized along me-  
chanical and manual training lines.  
He has been employed as manual  
training teacher in Moline, Ill., Leav-  
enworth, Kansas, Albia, Iowa and  
Phoenix, Arizona, and comes to  
Brainerd well recommended after re-  
election in every position which he  
has had.

The manual training classes will  
be formed at once and it may be nec-  
essary on account of the manual  
training work including high school  
classes this year to offer it in the 7th  
and 8th grades only, though this can-  
not be absolutely determined until the  
high school classes are formed.

The general outlook for the school  
year was never, on the whole, more  
encouraging.

The sewing and cooking quarters  
have undergone extensive improve-  
ments so that more pupils can be ac-  
commodated and more efficient work  
done in this important department.

The normal training class though  
not so large in numbers as last year,  
will include however only such stud-  
ents this year as may receive certifi-  
cate to teach at the end of the year.  
A practice school containing all the  
lower grades has already been started  
in one of the vacant rooms at the  
Lowell school and this together with  
the assistance offered in several of the  
overcrowded rooms at the Whittier  
and Harrison schools will afford  
abundant opportunity for the practice  
work so important as a part of the  
normal training education.

Attention is again called to the  
compulsory school law making it ob-  
ligatory for every parent or guardian  
to keep in school during the entire  
school year any child under 16 years  
of age over which he has charge, un-  
less such child has completed the 8th  
grade.

Employers of labor are forbidden,  
under penalty, to employ any child  
under school age at any time while the  
school is in session. This applies to  
all person alike including housework,  
or the distribution of bills and adver-  
tising matter. Any person who has  
in his employ any child under 16  
years of age while the school is in  
session is required by law to have on  
file the official permit which is issued  
only by the superintendent of schools.

As there has been some carelessness  
in this matter the first month of  
school, notice is hereby given and if  
the violation continues the services  
of the county attorney will be in-  
voked as required by the state law.

To parents who are interested in  
the welfare of children and their pro-  
gress in school we would call atten-  
tion to the fact that altogether too  
many young children are given the  
freedom of the streets after night and  
that many of the same would be  
much better off at home or under  
parental supervision. About 90 per  
cent of the cases of wayward boys  
can be traced to this lack of restraint  
and necessary supervision during  
their earlier years of life.

Parents are earnestly requested to  
cooperate with the teachers of the  
school both in the matter of school  
attendance and the general behav-  
ior of the children both in and out of

**BILL GOES TO PRESIDENT**

House Passes Rivers and Harbors  
Supply Measure.

Washington, Sept. 30.—The rivers  
and harbors appropriation bill in the  
form of a senate substitute, carrying  
only a general fund of \$20,000,000 for  
continuing projects in the discretion  
of the war department, was passed  
by the house. It needs the presi-  
dent's approval to become law.

As reported by the senate commit-  
tee the bill included appropriations  
aggregating \$52,000,000, but the suc-  
cessful filibuster conducted by Senator  
Burton resulted in the adoption of  
the substitute.

**Don't be Bothered with Coughing**

Stop it with Foley's Honey and Tar  
Compound. It spreads a soothing,  
healing coating as it glides down the  
throat, and tickling, hoarseness, and  
nervous hacking are quickly healed.  
Children love it—tastes good and no  
opiates. A man in Texas walked 15  
miles to a drug store to get a bottle.  
Best you can buy for croup and bron-  
chial coughs. Try it. H. P. Dunn.

In all the years we have specialized in the display and sale of high-  
grade dress goods we cannot recall an opening exhibit of new styles that ever  
approached this one in completeness—and if you have the slightest wish to choose your  
new dress from an assortment of unmatched styles, this is the logical place to do so.

## LaPorte Dress Goods For Fall

which we invite you to see at this time is by far the best balanced display the Mills have  
ever produced—in that it contains so few styles that might be termed "extreme." The  
Qualities are superb—the Styles cannot be surpassed—the range of colors and Shades are  
rich and beautiful—yet, in every instance the prices are lower than the most experienced  
dress goods shopper would expect them to be, quality considered. Of the more exclusive  
styles for Blouses, Dresses and Coats that are attracting the most attention, we particu-  
larly urge you to see the beautiful array of Crepe de Chine, Granite Crepes, Crepe Cra-  
quelle, Tussah Carina, Dainty Plaids, Veloutine and Roman Stripe Effects. For Afternoon  
or Evening wear it would be impossible to find a better assortment of serviceable Fabrics  
than those at Our Smart Shop.

## REPORT ON THE CITY SCHOOLS

Enrollment This Year, Says Supt. W.  
C. Cobb, Almost Identical With  
That of Last Year

1,710 STUDENTS IN THE SCHOOLS

The New Principals, Special Teach-  
ers and New Grade Teachers—  
Teachers Record

The enrollment of the city schools  
at the close of the first month is al-  
most identical with that of a year ago  
at the same date, there being one  
more pupil enrolled in the grades this  
year, one less in the high school and  
eight less in the normal training de-  
partment, the latter due to the addi-  
tional requirements imposed by the  
state for entrance to training depart-  
ments this year.

The attendance in all the schools  
for the first month is the highest that  
has ever been attained within the last  
five years being 98.4 per cent.

The enrollment in the various  
wards of the city show but slight  
changes over that of the preceding  
year, the Lowell and the Harrison  
districts being the ones reporting a  
slight increase.

The record by buildings runs as  
follows:

Whittier School—Enrolled, 213;  
tardies, 5; per cent of attendance,  
98.9.

Lincoln School—Enrolled, 272;  
tardies, 9; per cent of attendance,  
98.8.

High School Dept.—Enrolled, 270;  
tardies, 3; per cent of attendance,  
98.3.

Lowell School—Enrolled, 422;  
tardies, 21; per cent of attendance, 98.2.

Washington School Grades—En-  
rolled, 222; tardies, 10; per cent of  
attendance, 98.

Harrison School—Enrolled, 308;  
tardies, 7; per cent of attendance,  
97.8.

Report of all schools: Enrolled,  
813 boys, 897 girls, total 1710; cases  
tardiness for month, 55; tardiness by  
teachers, 3; days lost by teachers, 8;  
case of corporal punishment, 5; cases  
of truancy reported, 5; per cent of at-  
tendance, 98.4; number of fire drills,  
16; number of teachers meetings  
held, 4.

The schools this year include a  
number of new principals and special  
teachers as well as the usual num-  
ber of new grade teachers.

Miss Clara E. Case, who taught the  
8th grade at Austin, Minn., last year,  
is principal at the Lowell school in  
the position vacated by Miss Amy  
Lowey.

Miss Edna Kruger has charge of  
the normal training department hav-  
ing occupied a similar position in the  
Hutchinson and Glencoe, Minn.,  
schools in recent years.

In the high school department Miss  
Blanche Door, a graduate of the Uni-  
versity of Minnesota and a teacher of  
much successful experience in good  
Minnesota state high schools, has  
charge of the advanced English work  
formerly handled by Miss McCoy.

Miss Therese Muller from the Uni-  
versity of Wisconsin, also a high  
school teacher of experience, has  
charge of the work formerly in charge  
of Miss Nichol.

E. A. Kefau, a graduate of the  
state normal school at Ypsilanti,  
Mich. and of the Cleary Business Uni-  
versity of Ypsilanti, is at the head  
of the commercial department in  
place of C. C. Gray.

Miss Jule O'Brien takes a position  
in mathematics and history in place  
of Miss Moore.

John G. Carroll of Moline, Ill., will

have charge of the manual training  
work and will be on hand to assume  
his duties this week.

Mr. Carroll is a graduate of the  
state normal school of Indiana and  
has had two years of college work  
at Earlham college, Richmond, Indi-  
ana, where he specialized along me-  
chanical and manual training lines.  
He has been employed as manual  
training teacher in Moline, Ill., Leav-  
enworth, Kansas, Albia, Iowa and  
Phoenix, Arizona, and comes to  
Brainerd well recommended after re-  
election in every position which he  
has had.

The manual training classes will  
be formed at once and it may be nec-  
essary on account of the manual  
training work including high school  
classes this year to offer it in the 7th  
and 8th grades only, though this can-  
not be absolutely determined until the  
high school classes are formed.

The general outlook for the school  
year was never, on the whole, more  
encouraging.

The sewing and cooking quarters  
have undergone extensive improve-  
ments so that more pupils can be ac-  
commodated and more efficient work  
done in this important department.

The normal training class though  
not so large in numbers as last year,  
will include however only such stud-  
ents this year as may receive certifi-  
cate to teach at the end of the year.  
A practice school containing all the  
lower grades has already been started  
in one of the vacant rooms at the  
Lowell school and this together with  
the assistance offered in several of the  
overcrowded rooms at the Whittier  
and Harrison schools will afford  
abundant opportunity for the practice  
work so important as a part of the  
normal training education.

Attention is again called to the  
compulsory school law making it ob-  
ligatory for every parent or guardian  
to keep in school during the entire  
school year any child under 16 years  
of age over which he has charge, un-  
less such child has completed the 8th  
grade.

Employers of labor are forbidden,  
under penalty, to employ any child  
under school age at any time while the  
school is in session. This applies to  
all person alike including homework,  
or the distribution of bills and adver-  
tising matter. Any person who has  
in his employ any child under 16  
years of age while the school is in  
session is required by law to have on  
file the official permit which is issued  
only by the superintendent of schools.

As there has been some carelessness  
in this matter the first month of  
school, notice is hereby given and if  
the violation continues the services  
of the county attorney will be in-  
voked as required by the state law.

To parents who are interested in  
the welfare of children and their pro-  
gress in school we would call atten-  
tion to the fact that altogether too  
many young children are given the  
freedom of the streets after night and  
that many of the same would be  
much better off at home or under pa-  
rental supervision. About 90 per  
cent of the cases of wayward boys  
can be traced to this lack of restraint  
and necessary supervision during  
their earlier years of life.

Parents are earnestly requested to  
cooperate with the teachers of the  
school both in the matter of school  
attendance and the general behavi-  
our of the children both in and out of

### HOW TO TELL A GIRL'S AGE

By Following the Subjoined Instructions the Exact Age Can Be Determined Every Time

Girls of marriageable age do not like to tell how old they are; but you can find out by following the subjoined instructions, the young lady doing the figuring. Tell her to put down the number of the month in which she was born, then to multiply by 50, then to add her age, then to subtract 365, then to add 115, then tell her to tell you the amount she has left. The two figures to the right will tell you her age and the remainder the month of her birth. For example, the amount 822, she is 22 year old and was born in the eighth month (August). Try it.

## INFLUENCE OF GOOD MUSIC

Music, of all the Arts, is Most Closely Intertwined With Our Ideals, Ideas and Feelings

### CREATES THOUGHTS, EMOTIONS

Numbers of Elevating, Stimulating Ideas are Aroused by the Great Sonata or Song

A pamphlet describing the C. W. Best Artists' Series, which produces in Brainerd three entertainments under the auspices of the Knights of Columbus, has an introduction which is well worthy of reproduction. This statement is made regarding good music and its influence:

The influence exerted over a community by a company of cultivated musicians cannot be estimated by the number of tickets sold. Nor does it wane with the last lights in the concert room. For music cannot be bought and sold any more than your ideas, ideas, and feelings can be bought and sold. Music, of all the arts, is the most closely intertwined with our ideals, ideas and feelings. That is because its appeal is personal and intimate. It has the power of actually creating thought and emotions.

Numbers of elevating, stimulating ideas are roused by the great sonata or song. Bright fancies respond to the gay rhythms of the scherzo, waltz and ballad. Even the deepest dejection is soothed and relieved by the sympathetic largo and adagio.

"Your playing makes me live over again every pain as well as every joy that I have ever known," a great French writer once told Chopin after she first heard him play.

As music has this vast personal influence, this power over thought and feeling, how important it is to invite the best music into your community. Yet to invite only the music is not enough. There must be skillful interpretation. A vulgar hurdy-gurdy on the street corner cannot bring to a community the beauty of Beethoven, Chopin and Schubert. Only the true musician of broad training, can give one the golden key that admits one into the ideal world of thought and feeling in which the composer lived.

Be sure that you invite the best music to your community. Be sure that you secure competent musicians to interpret it for you.

### Annual Election

On Thursday the Ladies Aid society of the First Congregational church holds its annual election of officers. Reports will be read on the work of the year.

### Young Peoples Society

The Young Peoples Society of the Swedish Lutheran church will meet Friday evening, October 2, at the home of Mr. and Mrs. August Carlson, 1223 Southeast Pine street.

Some purgatives contain such strong drugs that, while they cause the bowels to move, injure the delicate linings of stomach and intestines. Hollister's Rocky Mountain Tea is not in that class. It is slightly laxative and at the same time healing and soothing. 35 cents.—H. P. Dunn.—Adv.

### Real to Him.

Minister (calling on inmate of prison)—Remember, Mr. Kenney, that stone walls do not a prison make, nor iron bars a cage. Kenney—Well, they've got me hypnotized, then, that's all.—Penn State Froth.

### Dizzy Head, Fluttering Heart, Floating Specks

These are signs of kidney and bladder trouble. You'll have headaches too, backaches and be tired all over. Don't wait longer, but take Foley Kidney Pills at once. Your miserable sick feeling will be gone. You will sleep well, eat well and grow strong and active again. Try them. H. P. Dunn.—Adv.

### PERSONAL MENTION

Mrs. William Daniels returned today from Bemidji.

Mr. and Mrs. J. C. Barber of "Twin Oaks", returned today to Chicago.

Miss Blanche Burchett, of Jenkins, is the guest of her friend, Miss Rose Hoerner.

Mrs. F. E. Lowe, of Fargo, N. D., is visiting her daughter, Mrs. G. W. Chadbourne.

Mrs. John Baker has returned to Auburn, Ind., after a visit with Mrs. O. W. Merwin.

Mrs. Fred Wendt, of St. Cloud, returned home today after a short visit with Mrs. Robert Jaeger.

Dr. and Mrs. Clarence Galden and son, Harold, of Virginia, Minn., are visiting Mr. and Mrs. F. B. Winslow.

Mr. and Mrs. Harry J. Carlson have returned from their wedding trip. They spent their honeymoon in the F. S. Parker summer cottage at Parkerville and the place had been beautifully arranged for their coming. Masses of flowers in all rooms greeting them with a fragrant welcome.

Mr. and Mrs. George Eschenbacher and Mr. and Mrs. Adam Kirch returned today from Iron Hub where they attended the wedding of William H. V. Knuppel and Miss Lydia Harms, solemnized at the home of the bride's parents, Mr. and Mrs. William Harms. Rev. Engel officiated. The bride-maid was Miss Knuppel, a sister of the bridegroom and the best man was Bernard Harms, a brother of the bride.

### CALL FOR AID

Committee of Mercy to Alleviate in International Movement Distress of Relatives of Soldiers

An international movement for the relief of the distressed wives, children and other relatives and dependents of soldiers involved in the World War has been organized and is conducting a campaign for funds with which to carry on the Mercy Work. The effort is being made by the Committee of Mercy which has its headquarters at No. 336, Fifth Ave. Bldg., New York.

The president of the organization is the Hon. Elihu Root, U. S. senator from New York. Its treasurer, is August Belmont, to whom contributions may be forwarded. The plan has the endorsement of President Woodrow Wilson, who, consistent with his attitude of neutrality, recognized the necessity for a movement to relieve the non-combatants of all nations involved in the struggle.

The field of the Red Cross is to minister to the sick and wounded soldiers. The mission of the Committee of Mercy is to help those left behind by the soldiers. Relief will be given to such, no matter where they reside.

The vast number in the United States will be aided as well as the indigent and suffering in the theatre of the European war.

Among those interested in the movement and who have taken up the active work in New York are: Miss Katherine B. Davis, Chas. W. Elliot, Mrs. Borden Harriman, Hon. John Purroy Mitchell, Mr. Norman Hapgood, Mrs. Harry Payne Whitney, Miss Ida Tarbell, Prof. Wm. M. Sloane, Mrs. August Belmont, Mrs. Walter Maynard, Prince Paul Troubetzkoy, Mr. T. C. Glen-Coats, Mr. Frank Crowninshield, Count A. Sters-torff, Mr. Vincent Astor, Mrs. Chas. R. Crane, Mr. G. Lindenthal, Mrs. W. D. Sloane, Gertrude Atherton, Mrs. Melville E. Stone, Mr. Leon Schinas, Professor M. I. Pupin, Mr. John Mof-fat, Mr. Carl Beck, Mrs. W. K. Draper, secretary of the New York Chapter of the Red Cross and Mr. Samuel Lewisohn.

### Church Supper

On Tuesday, October 6, the ladies of the First Congregational church will hold a supper at the church.

There is more Calvary in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it incurable, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh of the bladder a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. Cheney & Co., Toledo, O. Sol. 174 Druggists, 75c. "Hall's Catarrh Pills for constipation."

### SEED GATHERING TIME

It Pays to Save Them as the War in Europe Will Affect the Supply of Many Garden Seeds

Do you save the seed from your own garden? Don't let your flowers go to seed too soon, but when you find that the flowering season is over, then do not cut off the fading blooms, says Katherine Moore Matlack, in the Detroit Free Press. Either let them sow themselves after going to seed or gather the seed and sow when and where you prefer. Or give your neighbors some of your choice varieties.

Be sure the seeds are perfectly ripe. You can tell easily—the pod gets ready to burst, looking dark or even dried up. Larkspurs sown early from the seeds of the first crop of flowers are always finest. But don't let all of them go to seed or you won't have that second crop of flowers I've told you can be had by cutting down the plants after the first periods of bloom. Use judgment—don't follow any rules blindly—experiment for yourself.

Since seeds cannot germinate until they are covered with earth, it stands to reason that the garden that has its soil most assiduously cultivated will allow more plants to self-sow in its soft, loose soil than the one in which the ground is hard and dry.

You may also set out hardy perennial plants at this season and it is still time for bulbs.

Undoubtedly the war in Europe has already affected the supply of bulbs in this country and their prices, since most of our tulips, daffodils, hyacinths and lilies come from Holland and France, it would be well to stock the garden now, since who can foresee how long and wide-reaching the paralyzation of all imports may be?

Then, too, since we import such vast quantities of digitalis, senna, larkspur seed, valerian, aconite, gentian, etc., from Europe, Asia and Africa, through those greatest drug marts, London and Hamburg, as well as from other ports, Americans should take advantage of this opportunity to grow these plants at home.

Why suffer with your stomach, kidneys and liver when Hollister's Rocky Mountain Tea will make you well? If taken this month, keeps you well all the year. 35 cents, Tea or Tablets. H. P. Dunn.—Adv.

### COMFORTING WORDS

Many a Brainerd Household Will Find Them So

To have the pains and aches of a bad back removed—to be entirely free from annoying, dangerous urinary disorders, is enough to make any kidney sufferer grateful. The following advice of one who has suffered will prove comforting words to hundreds of Brainerd readers.

William Wick, R. D. No. 4, W. Brainerd, Minn., says: "I had kidney and bladder trouble and nothing seemed to benefit me. My back was so bad at times that I couldn't stoop or straighten after I had been sitting for awhile. I finally got Doan's Kidney Pills and before I had finished one box, I was fixed up in good shape. I procured Doan's Kidney Pills at H. P. Dunn's drug store, and I am glad to say that the cure they brought me has proven permanent. You can certainly keep on publishing the endorsement I have previously given this fine medicine."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Wick had. Foster-Milburn Co., Props., Buffalo, N. Y.

### A Costly Mineral.

The number of rare minerals found to exist in Tasmania is constantly being added to, and the latest addition is molybdenite, which is used in the manufacture of "molybdenum steel," to which it gives a special hardness and toughness that make it suitable for use in propeller shafts, guns and boilers. It is also used to a lesser extent in the making of pottery, glass and other things. The price of molybdenite is now \$2,500 a ton, or nearly four times the present price of tin—Argo naut.

### Passes Emergency Acts.

London, Sept. 30.—Special legislation called for on account of the war has run up to a total of forty emergency acts of parliament passed since hostilities began on Aug. 4.

### A Lame Back—Kidney Trouble Causes It

And it will give you even worse if not checked. Mrs. H. T. Strayage, Gainesville, Ga., was fairly down on her back with kidney trouble and inflamed bladder. She says: "I took Foley Kidney Pills and now my back is stronger than it was, and both kidney and bladder troubles are entirely gone." H. P. Dunn.—Adv.

The Sequence. "So you chopped down the cherry tree," remarked Washington senior. "Yes," responded the future Father of His Country. "Having chopped it down, I suppose you'll want me to chop it up now."—Philadelphia Ledger.

D. M. Clark & Co., Miss Weldon and Miss Sloan to lecture and GIVE PRACTICAL BAKING TESTS

The lecture on Science of Domestic Economy, to be given will be of unusual interest to the women of Brainerd. These experts teach the art of successful making accomplished in a way so easy that you cannot help but appreciate their skill and the suggestions that make your success so sure and superlative. Bad luck in baking is en-

tirely eliminated by their methods of doing the work. It is a rare treat to see the results obtained by these experts. They are exponents of the art of baking as taught by Mrs. Janet McKenzie Hill, of the widely-famed Boston cooking school, and have many ideas that are new and practical that are sure to be of help to you in your every day baking.

These lectures are free—there is no charge whatever. Tastes of delicious baking will be served to those attending, hot from the oven, while you wait, chairs will be placed so that you may sit in comfort during these talks and illustrations. The famous K. C. Baking Powder will be used.

The special recipes used are by Mrs. Hill, of Boston. For your delectation the following dainties will be made and served.

Ladies should be in their seats at 2:30 to get the full benefit of these lectures. You are requested to bring a fork for sampling, and a pencil for taking notes.

## THE economy

practiced in the use of Ivory Soap for the toilet simply is a matter of paying 5 cents for a six-ounce cake of soap instead of 8 cents, 10 cents or 25 cents for a smaller cake of soap that cannot be a particle better.

It is simply a matter of knowing from experience that Ivory Soap is as mild and as pure as soap can be; that it agrees with the skin as well as any "complexion" soap; that it is the most pleasant and refreshing soap that ever entered a bathroom.

There is more satisfaction in practicing Ivory Soap economy than in indulging toilet soap extravagance.

### HOW TO TELL A GIRL'S AGE

By Following the Subjoined Instructions the Exact Age Can Be Determined Every Time

Girls of marriageable age do not like to tell how old they are; but you can find out by following the subjoined instructions, the young lady doing the figuring. Tell her to put down the number of the month in which she was born, then to multiply by 50, then to add her age, then to subtract 365, then to add 115, then tell her to tell you the amount she has left. The two figures to the right will tell you her age and the remainder the month of her birth. For example, the amount 822, she is 22 year old and was born in the eight month (August). Try it.

### INFLUENCE OF GOOD MUSIC

Music, of all the Arts, is Most Closely Intertwined With Our Ideals, Ideas and Feelings

### CREATES THOUGHTS, EMOTIONS

Numbers of Elevating, Stimulating Ideas are Aroused by the Great Sonata or Song

A pamphlet describing the C. W. Best Artists' Series, which produces in Brainerd three entertainments under the auspices of the Knights of Columbus, has an introduction which is well worthy of reproduction. This statement is made regarding good music and its influence:

The influence exerted over a community by a company of cultivated musicians cannot be estimated by the number of tickets sold. Nor does it wane with the last lights in the concert room. For music cannot be bought and sold any more than your ideals, ideas, and feelings can be bought and sold. Music, of all the arts, is the most closely intertwined with our ideals, ideas and feelings. That is because its appeal is personal and intimate. It has the power of actually creating thought and emotions.

Numbers of elevating, stimulating ideas are roused by the great sonata or song. Bright fancies respond to the gay rhythms of the scherzo, waltz and ballad. Even the deepest dejection is soothed and relieved by the sympathetic largo and adagio.

"Your playing makes me live over again every pain as well as every joy that I have ever known," a great French writer once told Chopin after she first heard him play.

As music has this vast personal influence, this power over thought and feeling, how important it is to invite the best music into your community. Yet to invite only the music is not enough. There must be skillful interpretation. A vulgar hurdy-gurdy on the street corner cannot bring to a community the beauty of Beethoven, Chopin and Schubert. Only the true musician of broad training, can give one the golden key that admits one into the ideal world of thought and feeling in which the composer lived.

Be sure that you invite the best music to your community. Be sure that you secure competent musicians to interpret it for you.

### Annual Election

On Thursday the Ladies Aid society of the First Congregational church holds its annual election of officers. Reports will be read on the work of the year.

### Young Peoples Society

The Young Peoples Society of the Swedish Lutheran church will meet Friday evening, October 2, at the home of Mr. and Mrs. August Carlson, 1323 Southeast Pine street.

Some purgatives contain such strong drugs that, while they cause the bowels to move, injure the delicate linings of stomach and intestines. Hollister's Rocky Mountain Tea is not in that class. It is slightly laxative and at the same time healing and soothing. 35 cents.—H. P. Dunn.—Adv.

### Real to Him.

Minister (calling on inmate of prison)—Remember, Mr. Kenney, that stone walls do not a prison make, nor iron bars a cage. Kenney—Well, they've got me hypnotized, then, that's all.—Penn State Froth.

### Dizzy Head, Fluttering Heart, Floating Specks

These are signs of kidney and bladder trouble. You'll have headaches too, backaches and be tired all over. Don't wait longer, but take Foley Kidney Pills at once. Your miserable sick feeling will be gone. You will sleep well, eat well and grow strong and active again. Try them. H. P. Dunn.—Adv.

### PERSONAL MENTION

Mrs. F. E. Lowe, of Fargo, N. D., is visiting her daughter, Mrs. G. W. Chadbourne.

Mrs. John Baker has returned to Auburn, Ind., after a visit with Mrs. O. W. Merwin.

Mrs. Fred Wendt, of St. Cloud, returned home today after a short visit with Mrs. Robert Jaeger.

Dr. and Mrs. Clarence Galden and son, Harold, of Virginia, Minn., are visiting Mr. and Mrs. F. B. Winslow.

Mr. and Mrs. Harry J. Carlson have returned from their wedding trip. They spent their honeymoon in the P. S. Parker summer cottage at Parkerville and the place had been beautifully arranged for their coming. Masses of flowers in all rooms greeting them with a fragrant welcome.

Mr. and Mrs. George Eschenbacher and Mr. and Mrs. Adam Kirch returned today from Iron Hub where they attended the wedding of William H. V. Knuppel and Miss Lydia Harms, solemnized at the home of the bride's parents, Mr. and Mrs. William Harms, Rev. Engel officiated. The bride-maid was Miss Knuppel, a sister of the bridegroom and the best man was Bernard Harms, a brother of the bride.

### CALL FOR AID

Committee of Mercy to Alleviate in International Movement Distress of Relatives of Soldiers

An international movement for the relief of the distressed wives, children and other relatives and dependents of soldiers involved in the World War has been organized and is conducting a campaign for funds with which to carry on the Mercy Work.

The effort is being made by the Committee of Mercy which has its headquarters at No. 336, Fifth Ave. Bldg., New York.

The president of the organization is the Hon. Elihu Root, U. S. senator from New York. Its treasurer, is August Belmont, to whom contributions may be forwarded. The plan has the endorsement of President Woodrow Wilson, who, consistent with his attitude of neutrality, recognized the necessity for a movement to relieve the non-combatants of all nations involved in the struggle.

The field of the Red Cross is to minister to the sick and wounded soldiers. The mission of the Committee of Mercy is to help those left behind by the soldiers. Relief will be given to such, no matter where they reside.

The vast number in the United States will be aided as well as the indigent and suffering in the theatre of the European war.

Among those interested in the movement and who have taken up the active work in New York are: Miss Katherine B. Davis, Chas. W. Eliot, Mrs. Borden Harriman, Hon. John Purroy Mitchell, Mr. Norman Hapgood, Mrs. Harry Payne Whitney, Miss Ida Tarbell, Prof. Wm. M. Sloane, Mrs. August Belmont, Mrs. Walter Maynard, Prince Paul Troubetzkoy, Mr. T. C. Glen-Coats, Mr. Frank Crowninshield, Count A. Sters-torp, Mr. Vincent Astor, Mrs. Chas. R. Crane, Mr. G. Lindenthal, Mrs. W. D. Sloane, Gertrude Atherton, Mrs. Melville E. Stone, Mr. Leon Schinasi, Professor M. I. Pupin, Mr. John Mof-fat, Mr. Carl Beck, Mrs. W. K. Draper, secretary of the New York Chapter of the Red Cross and Mr. Samuel Lewisohn.

### Church Supper

On Tuesday, October 6, the ladies of the First Congregational church will hold a supper at the church.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it incurable, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Halls Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 16 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. Cheney & Co., Toledo, O. Sold by Druggists. Take 14U's Family Pills for constipation.

### SEED GATHERING TIME

It Pays to Save Them as the War in Europe Will Affect the Supply of Many Garden Seeds

Do you save the seed from your own garden? Don't let your flowers go to seed too soon, but when you find that the flowering season is over, then do not cut off the fading blooms, says Katherine Moore Matlack, in the Detroit Free Press. Either let them sow themselves after going to seed or gather the seed and sow when and where you prefer. Or give your neighbors some of your choice varieties.

Be sure the seeds are perfectly ripe. You can tell easily—the pods gets ready to burst, looking dark or even dried up. Larkspurs sown early from the seeds of the first crop of flowers are always finest. But don't let all of them go to seed or you won't have that second crop of flowers I've told you can be had by cutting down the plants after the first periods of bloom. Use judgment—don't follow any rules blindly—experiment for yourself.

Since seeds cannot germinate until they are covered with earth, it stands to reason that the garden that has its soil most assiduously cultivated will allow more plants to self-sow in its soft, loose soil than the one in which the ground is hard and dry.

You may also set out hardy perennial plants at this season and it is still time for bulbs.

Undoubtedly the war in Europe has already affected the supply of bulbs in this country and their prices, since most of our tulips, daffodils, hyacinths and lillies come from Holland and France. It would be well to stock the garden now, since who can foresee how long and wide-reaching the paralyzation of all imports may be?

Then, too, since we import such vast quantities of digitalis, senna, larkspur seed, valerian, aconite, gentian, etc., from Europe, Asia and Africa, through those greatest drug marts, London and Hamburg, as well as from other ports, Americans should take advantage of this opportunity to grow these plants at home.

Why suffer with your stomach, kidneys and liver when Hollister's Rocky Mountain Tea will make you well? If taken this month, keeps you well all the year. 35 cents, Tea or Tablets. H. P. Dunn.—Adv.

### COMFORTING WORDS

Many a Brainerd Household Will Find Them So

To have the pains and aches of a bad back removed—to be entirely free from annoying, dangerous urinary disorders, is enough to make any kidney sufferer grateful. The following advice of one who has suffered will prove comforting words to hundreds of Brainerd readers.

William Wick, R. D. No. 4, W. Brainerd, Minn., says: "I had kidney and bladder trouble and nothing seemed to benefit me. My back was so bad at times that I couldn't stoop or straighten after I had been sitting for awhile. I finally got Doan's Kidney Pills and before I had finished one box, I was fixed up in good shape. I procured Doan's Kidney Pills at H. P. Dunn's drug store, and I am glad to say that the cure they brought me has proven permanent. You can certainly keep on publishing the endorsement I have previously given this fine medicine."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Wick had. Foster-Milburn Co., Props., Buffalo, N. Y.

### A Costly Mineral.

The number of rare minerals found to exist in Tasmania is constantly being added to, and the latest addition is molybdenite, which is used in the manufacture of "molybdenum steel," to which it gives a special hardness and toughness that make it suitable for use in propeller shafts, guns and boilers. It is also used to a lesser extent in the making of pottery, glass and other things. The price of molybdenite is now \$2,500 a ton, or nearly four times the present price of tin.—Argonaut.

### Passes Emergency Acts.

London, Sept. 30.—Special legislation called for on account of the war has run up to a total of forty emergency acts of parliament passed since hostilities began on Aug. 4.

### A Lame Back—Kidney Trouble Causes It

And it will give you even worse if not checked. Mrs. H. T. Strayge, Gainesville, Ga., was fairly down on her back with kidney trouble and inflamed bladder. She says: "I took Foley Kidney Pills and now my back is stronger than in years, and both kidney and bladder troubles are entirely gone." H. P. Dunn.—Adv.

The Sequence.  
"So you chopped down the cherry tree," remarked Washington senior.  
"Yes," responded the future Father of His Country. "Having chopped it down, I suppose you'll want me to chop it up now."—Philadelphia Ledger.

There is going to be blood shed down in Mexico unless Villa has his way about the management of affairs. He does not seem to be at all backward about putting his objections in writing and offering to back them up with gun powder.

The story is going the rounds of the press that Hugh Halbert will withdraw his candidacy for governor on the progressive ticket owing to disappointment because he could not get Roosevelt to come to Minnesota to speak for him. His petition which is ready should be filed by October 3d.

Print shops throughout the country have been notified of an advance of 10 per cent in all kinds of paper, which is the third advance in paper stock in the past two years. Present conditions in Europe will probably cause further advances as the supply of much of the material used in the manufacture comes from those countries at war and it is impossible to get it.

Congressman Lindbergh is coming back into his district and is billed for a non-political speech at Akeley early in October. The fences of the congressman seem to be broken in some sections and while he delivers "non-political" addresses he will undoubtedly make repairs on the side. It is really too bad that the republican party has no republican candidate for congress this year.

## MINNESOTA'S GOOD SHOWING

Natural Resources of the State are Exhibited at the Illinois State Fair

## SPLENDID MISSIONARY WORK

State Immigration Commissioner Sherman and G. N. Ry. Co. Cooperative in Advertising State

Springfield, Ill., Sept. 30.—The greatest achievement in the exploitation of Minnesota's natural resources in the Gopher state's history was achieved during the week of the Illinois state fair, as the result of the co-operation of Fred D. Sherman, state immigration commissioner and the immigration department of the Great Northern railway company. The missionary work was concentrated on the renters of Illinois farms and many of them were brought to a realization that they can establish farms of their own on cheaper Minnesota land which will produce just as much as the high priced land of Illinois for which they are paying fancy rentals. The Minnesota state exhibit was installed in the main exposition building of the Illinois state fair grounds while the Great Northern railway reached the horde of fair visitors through an exhibit in a circus tent on the main grounds. Fred D. Sherman, Minnesota's state immigration commissioner and W. C. King, the state's expert was in charge of the Minnesota exhibit while E. C. Leedy, immigration agent for the Great Northern railroad company, was in charge of the novel exhibit which L. W. Hill placed under canvas. Both these exhibits were the center of attraction especially to the Illinois farm tenants, the great majority of whom were seeking to establish themselves on farms of their own. Mr. Sherman declares that Minnesota will get the "call" when the prospective home-seekers pack up their movables and strike out for themselves.

Among prominent visitors at the Minnesota booth was President Funk of the National Corn Show, who resides at Bloomington, Ill. Mr. Funk complimented Commissioner Sherman very highly upon the Minnesota exhibit and said: "This is truly a remarkable agricultural exhibit and I believe that it will be very illuminating to the Illinois people, many of whom believe that corn can not be grown in Minnesota successfully. I notice that you have here on exhibition a great many varieties of some of the finest corn that I have ever seen. Your yellow and white dent corn compares very favorably with the best varieties of corn grown in Illinois. The fact that Minnesota led every state in the union in the point of yield per acre in the year 1913 proves to me conclusively that Minnesota is a corn state."

H. V. Eastman, representing the Hill City Commercial club is on the job here and is convincing the Illinois farmers that his section of the state is a country particularly adapted to farmers who are seeking homes where land is cheap in a prosperous state. While the attention of the vast throng of fair visitors was focused upon Minnesota, to give it greater impetus, Commissioner Sherman arranged to have moving pictures showing Minnesota's agricultural, mining and manufacturing industries shown nightly on a screen in full view of the public that throngs Main street on Capitol square.

What Lacked Buttons. An English colonel at kit inspection said to Private Flanagan: "Ha! Yes, shirts, socks, flannels, all very good. Now, can you assure me that all the articles of your kit have buttons on them?"

"No, sir," said Private Flanagan hesitatingly. "How's that, sir?" "Aren't no buttons on the towels, sir!"—Kansas City Star.

A Cheerful Outlook. Lady (engaging a page boy)—Well, how soon can you come? Page (readily)—At once, mum.

Lady—but surely your present mistress won't like that. Page (brightly)—Oh, yes, she will, mum! She'll be only too glad to get rid of me.—London Opinion

The story is going the rounds of the press that Hugh Halbert will withdraw his candidacy for governor on the progressive ticket owing to disappointment because he could not get Roosevelt to come to Minnesota to speak for him. His petition which is ready should be filed by October 3d.

Print shops throughout the country have been notified of an advance of 10 per cent in all kinds of paper, which is the third advance in paper stock in the past two years. Present conditions in Europe will probably cause further advances as the supply of much of the material used in the manufacture comes from those countries at war and it is impossible to get it.

Congressman Lindbergh is coming back into his district and is billed for a non-political speech at Akeley early in October. The fences of the congressman seem to be broken in some sections and while he delivers "non-political" addresses he will undoubtedly make repairs on the side. It is really too bad that the republican party has no republican candidate for congress this year.

You people who have made preparations to visit the Panama-Pacific exposition next year need have no fear that the opportunity will not be presented for the official announcement has been made from the secretary of the United States that the opening day will be Feb. 20, 1915. ## MINNESOTA'S GOOD SHOWING

Natural Resources of the State are Exhibited at the Illinois State Fair

## SPLENDID MISSIONARY WORK

State Immigration Commissioner Sherman and G. N. Ry. Co. Cooperation in Advertising State

Springfield, Ill., Sept. 30.—The greatest achievement in the exploitation of Minnesota's natural resources in the Gopher state's history was achieved during the week of the Illinois state fair, as the result of the co-operation of Fred D. Sherman, state immigration commissioner and the immigration department of the Great Northern railway company. The missionary work was concentrated on the renters of Illinois farms and many of them were brought to a realization that they can establish farms of their own on cheaper Minnesota land which will produce just as much as the high priced land of Illinois for which they are paying fancy rentals. The Minnesota state exhibit was installed in the main exposition building of the Illinois state fair grounds while the Great Northern railway reached the horde of fair visitors through an exhibit in a circus tent on the main grounds. Fred D. Sherman, Minnesota's state immigration commissioner and W. C. King, the state's expert was in charge of the Minnesota exhibit while E. C. Leedy, immigration agent for the Great Northern railroad company, was in charge of the novel exhibit which L. W. Hill placed under canvas. Both these exhibits were the center of attraction especially to the Illinois farm tenants, the great majority of whom were seeking to establish themselves on farms of their own. Mr. Sherman declares that Minnesota will get the "call" when the prospective homeseekers pack up their movables and strike out for themselves.

Among prominent visitors at the Minnesota booth was President Funk of the National Corn Show, who resides at Bloomington, Ill. Mr. Funk complimented Commissioner Sherman very highly upon the Minnesota exhibit and said:

"This is truly a remarkable agricultural exhibit and I believe that it will be very illuminating to the Illinois people, many of whom believe that corn can not be grown in Minnesota successfully. I notice that you have here on exhibition a great many varieties of some of the finest corn that I have ever seen. Your yellow and white dent corn compares very favorably with the best varieties of corn grown in Illinois. The fact that Minnesota led every state in the union in the point of yield per acre in the year 1913 proves to me conclusively that Minnesota is a corn state."

H. V. Eastman, representing the Hill City Commercial club is on the job here and is convincing the Illinois farmers that his section of the state is a country particularly adapted to farmers who are seeking homes where land is cheap in a prosperous state.

While the attention of the vast throng of fair visitors was focused upon Minnesota, to give it greater impetus, Commissioner Sherman arranged to have moving pictures showing Minnesota's agricultural, mining and manufacturing industries thrown nightly on a screen in full view of the public that throngs Main street on Capitol square.

**What Lacked Buttons.**  
An English colonel at kit inspection said to Private Flanagan:

"Ha! Yes, shirts, socks, flannels, all very good. Now, can you assure me that all the articles of your kit have buttons on them?"

"No, sir," said Private Flanagan hesitatingly.  
"How's that, sir?"  
"Aren't no buttons on the towels, sir?"—Kansas City Star.

**A Cheerful Outlook.**  
Lady (engaging a page boy)—Well, how soon can you come?  
Page (readily)—At once, mum.  
Lady—But surely your present mistress won't like that.  
Page (brightly)—Oh, yes, she will, mum! She'll be only too glad to get rid of me.—London Opinion.

## CHANGE TAKES PLACE IN FEDERAL POSITION

Henry P. Dunn Assumes Charge as  
Postmaster at the Close of Bus-  
iness This Evening

### BUSINESS OF OFFICE GROWS

For the First Time in Nearly Fifteen  
Years a Democratic Postmaster  
Will be at Helm

At the close of business tonight Henry P. Dunn will assume charge of the Brainerd postoffice as postmaster and custodian of the federal building. Mr. Dunn was appointed some

HENRY P. DUNN

Brainerd's New Postmaster, Who Assumes Charge, Oct. 1.

time ago by President Wilson and has been arranging his business affairs so as to give his attention to the new duties at the close of the quarter which occurs on Sept. 30, and which is a desirable time to make the change inasmuch as the business transactions between the postmaster and the government are settled four times each year, or at the close of each quarter, and the transfer of funds and stock on hand is simplified if made at such times.

Mr. Dunn is well known to the people of this city, having been a resident for many years, during which time he has been in the drug business first with the McFadden Drug Co. and later on going into business for himself in the First National bank block where his business is still conducted. He has stood well with the rank and file of his party, having been honored with the position of mayor and he has always been a loyal party man. His selection as postmaster was made after many months of consideration by the party leaders and he can well be proud of the distinction of having been chosen for the place from the list of active candidates. Mr. Dunn will give the people of Brainerd good service in his new position.

N. H. Ingersoll, the retiring postmaster, was appointed to the position

N. H. INGERSOLL

Who Retires After Nearly Fifteen Years Service as Postmaster

January 4, 1900, by William McKinley, reappointed on the 18th of January, 1904, by Theodore Roosevelt, and on the 15th of February, 1910, received a further commission of four years from William H. Taft, making nearly fifteen years of continuous service. During that time the Brainerd postoffice has made rapid strides forward, keeping pace with the growth of the city and is now considered one of the best in its class. In 1900 the office was located on Seventh street in the building later occupied by the Reilly grocery store since burned and

on which site stands the Reilly block. On July 15th of that year the office was moved into more commodious quarters in the Odd Fellow block on Sixth street at which time a new equipment was added. Three clerks performed the work of the office and the receipts were less than \$10,000. The office remained in that location until August 5, 1911, when it was moved into its present quarters in the new federal building at the corner of Sixth and Maple streets. The business of the office has increased until the receipts for the last year were \$21,269 and 21 employees are on the government pay roll, the postmaster's salary having been increased to \$2,600 on July 1st. Free delivery was established Nov. 1st, 1901, with three carriers, and at the present time six regular and two substitute carriers are required to take care of that branch of Uncle Sam's business. The postal savings department was installed on August 19, 1911. The steady growth of business indicated gives a correct idea of the growth of the city.

In years gone by the change in postmasters, with the change of administrations, meant a change in the working force also but under the present system the employees are all under civil service and they can only be displaced for cause and the same degree of efficiency is maintained. The postoffice employees are:

George W. Grewcox, assistant postmaster; W. A. Spencer, in charge of the postal savings and money order department; Maggie L. Atherton, registry and money order department; Clarence B. Stickney, Carl J. Wright and Walter Northrup, mailing clerks and distributors; A. R. Cass, Albert Englund, J. J. Nolan, Chris A. Nelson, Ray Hall and Frank Russell, regular carriers; Charles Risk and Asa J. French, substitute carriers; Albert Young, Geo. W. Fallon, W. H. Everett and James W. McMannis, rural carriers; John T. Imgrund, Jr., special messenger; Henry Anderson, janitor; Christine Sandberg, clerkwoman.

In addition to this four railway mail clerks are paid at the Brainerd office.

### PLAY WADENA OCT. 3

Little Falls High School Football Team  
Maps Out its Season's  
Schedule

The Little Falls high school football team, says the Little Falls Transcript, will open its 1914 season Saturday with a game against the Wadena high school at the fair grounds. A large squad has been turning out daily for practice and the outlook for a strong team this season is good. Wadena has usually managed to turn out a fast team in the past and the contest should be hard fought. The local team will average about 156 pounds.

Several other games have been arranged for and a schedule is gradually being made up. Following is the schedule as far as arranged, including five games.

Oct. 3, Wadena at Little Falls.  
Oct. 10, Aitkin or Elk River on their grounds.  
Oct. 17, Brainerd at Little Falls.  
Oct. 30, Wadena at Wadena.  
Nov. 17, Brainerd at Brainerd.

Efforts are being made by M. W. Zipoy, coach and manager of the high school team, to secure other games, and especially to get one with the St. Cloud high school. The Granite City school, however, has not arranged a schedule as yet and is unable to get a date. The local team's season will probably wind up about the middle of November.

### MUSIC AND DRAMA

#### At the Columbia

Alice Joyce came last night in the new play, "In Wolf's Clothing" and completely captivated the large audience. The artistic manner in which she handles the role of Daisy, is a triumph of the photomimic art. She was ably assisted by Tom Moore. The comedy was good. The same show will again be given this evening. Tomorrow Mary Pickford will be seen in "The Three Sisters." The big play of the evening will be "The Aggressor," made by the Lubin Famous Players. As a special attraction for Thursday and Friday Al Mraz will sing "Let us Have Peace," the new song dealing with the war in Europe. Mr. Bergh gives the assurance to the public that this song is the greatest artistic effort of Ernest Ball.

At the Suggestion of President Woodrow Wilson Sunday, October 4, is to be

### OBSERVED AS PEACE SUNDAY

Opportunity for Citizens to Show  
Their Patriotism and Spirit of  
Godliness

To the People of Brainerd:

At the suggestion of President Woodrow Wilson next Sunday will be observed as Peace Sunday. Throughout the length and breadth of this land people will be flocking to the house of God—what for? To intercede with the Father of all men to bring about a speedy end to what is worse than a cancer.

Never in the history of the world has there been such a war as is now being waged in Europe, a war that is sapping the best of blood and brain, and leaving behind a devastation that will take centuries to rebuild.

What is it all about? It is only American to hush on this subject. We have our private opinions as to the cause of the war and what the ultimate outcome will be, but in a land where all these nations are represented, where we all are doing our best to weld the races together by the common ties of manhood and womanhood, it would be folly to emphasize the cause or prophesy the outcome.

Let us rather follow the noble, dignified, and statesmanlike suggestion made by the President, that every God-fearing man and woman plan to enter church next Sunday and join with this nation, this the greatest of nations, in intercession to the Almighty that the time may soon come when war will cease, nay more, when our civilization will compel the disarmament of all nations.

This is a grand opportunity for the citizens of Brainerd, to show their patriotism, their breadth of vision, their spirit of Godliness; as a minister of the Gospel and one tremendously interested not only in the welfare of our city, but also in the bringing about of a world-wide peace, may I exhort you to feel the responsibility of this opportunity, and next Sunday let every citizen of Brainerd plan to enter the church of their choice, remembering and believing, that, "more things are wrought by prayer than this world dreams of".

### Some New Positions

O. C. Wakefield, St. Paul supply agent of the Northern Pacific, was appointed general storekeeper of the road Tuesday by George T. Slade, vice president in charge of operation. This is a newly created position. He will have charge of materials and supplies for the entire system, with headquarters in St. Paul. The appointment becomes effective Thursday. S. H. Robinson was appointed assistant general storekeeper, with headquarters at South Tacoma, Wash. Mr. Robinson will be remembered as at one time a resident of Brainerd.

### DEATH OF MRS. BONE

Mrs. Matilda Bone Passed Away at  
Age of 79, Members of Family  
at Her Bedside

Mrs. Matilda Bone, for over 35 years a resident of Brainerd, a kindly and estimable lady, passed away this afternoon at her home in the presence of her children. Her pleasant manner endeared her to many people and the store she had for many years was always thronged with young people and little ones who delighted to call her "Grandma."

Mrs. Bone was born in Canada in 1835 and was married there. She and her husband emigrated to the United States, landing at Milwaukee, Wis., in 1858. Later the family removed to Brainerd where she had been a resident over 35 years. Her husband died here 15 years ago. To them four sons and four daughters were born. Of these children she is survived by two sons and four daughters, being Joseph D. Bone of St. Paul and Samuel Bone of Minneapolis, Mrs. Victoria Laverdiere, Mrs. Jennie Fortier of Minneapolis, Louisa J. Hamelin and Mrs. Katherine Ungaritis of Brainerd.

Mrs. Bone was of sturdy health and was always busy in the store and generally had a little garden in which she delighted to cultivate vegetables and flowers. In later years she became feeble and suffered from dropsy, and this and the infirmities of old age causing her demise.

The funeral services it is expected, will be held on Friday morning at 9 o'clock from St. Francis Catholic church. To the sorrowing relatives the community extends its deepest sympathy in their hour of bereavement.

# CHANGE TAKES PLACE IN FEDERAL POSITION

Henry P. Dunn Assumes Charge as  
Postmaster at the Close of Bus-  
iness This Evening

## BUSINESS OF OFFICE GROWS

For the First Time in Nearly Fifteen  
Years a Democratic Postmaster  
Will be at Helm

At the close of business tonight  
Henry P. Dunn will assume charge  
of the Brainerd postoffice as postmas-  
ter and custodian of the federal build-  
ing. Mr. Dunn was appointed some

HENRY P. DUNN  
Brainerd's New Postmaster, Who As-  
sumes Charge, Oct. 1.

time ago by President Wilson and  
has been arranging his business af-  
fairs so as to give his attention to  
the new duties at the close of the  
quarter which occurs on Sept. 30, and  
which is a desirable time to make the  
change inasmuch as the business  
transactions between the postmaster  
and the government are settled four  
times each year, or at the close of  
each quarter, and the transfer of  
funds and stock on hand is simpli-  
fied if made at such times.

Mr. Dunn is well known to the peo-  
ple of this city, having been a resi-  
dent for many years, during which  
time he has been in the drug busi-  
ness first with the McFadden Drug  
Co. and later on going into business  
for himself in the First National bank  
block where his business is still con-  
ducted. He has stood well with the  
rank and file of his party, having  
been honored with the position of  
mayor and he has always been a loyal  
party man. His selection as postmas-  
ter was made after many months of  
consideration by the party leaders  
and he can well be proud of the dis-  
tinction of having been chosen for  
the place from the list of active can-  
didates. Mr. Dunn will give the peo-  
ple of Brainerd good service in his  
new position.

N. H. Ingersoll, the retiring post-  
master, was appointed to the position

N. H. INGERSOLL  
Who Retires After Nearly Fifteen  
Years Service as Postmaster

January 4, 1900, by William McKin-  
ley, reappointed on the 15th of Janu-  
ary, 1904, by Theodore Roosevelt,  
and on the 15th of February, 1910,  
received a further commission of four  
years from William H. Taft, making  
nearly fifteen years of continuous ser-  
vice. During that time the Brainerd  
postoffice has made rapid strides for-  
ward, keeping pace with the growth  
of the city and is now considered one  
of the best in its class. In 1900 the of-  
fice was located on Seventh street in  
the building later occupied by the  
Reilly grocery store since burned and

on which site stands the Reilly block.  
On July 15th of that year the office  
was moved into more commodious  
quarters in the Odd Fellow block on  
Sixth street at which time a new  
equipment was added. Three clerks  
performed the work of the office and  
the receipts were less than \$10,000.  
The office remained in that location  
until August 5, 1911, when it was  
moved into its present quarters in  
the new federal building at the cor-  
ner of Sixth and Maple streets. The  
business of the office has increased  
until the receipts for the last year  
were \$21,260 and 21 employees  
are on the government pay roll, the  
postmaster's salary having been in-  
creased to \$2,600 on July 1st. Free  
delivery was established Nov. 1st,  
1901, with three carriers, and at the  
present time six regular and two sub-  
stitute carriers are required to take  
care of that branch of Uncle Sam's  
business. The postal savings depart-  
ment was installed on August 19,  
1911. The steady growth of business  
indicated gives a correct idea of the  
growth of the city.

In years gone by the change in  
postmasters, with the change of ad-  
ministrations, meant a change in the  
working force also but under the  
present system the employees are all  
under civil service and they can only  
be displaced for cause and the same  
degree of efficiency is maintained.  
The postoffice employees are:

George W. Grewcox, assistant post-  
master; W. A. Spencer, in charge of  
the postal savings and money order  
department; Maggie L. Atherton, reg-  
istry and money order department;  
Clarence B. Stickney, Carl J. Wright  
and Walter Northrup, mailing clerks  
and distributors; A. R. Cass, Albert  
Englund, J. J. Nolan, Chris A. Nel-  
son, Ray Hall and Frank Russell, reg-  
ular carriers; Charles Risk and Asa  
J. French, substitute carriers; Albert  
Young, Geo. W. Fallon, W. H. Ever-  
est and James W. McManis, rural  
carriers; John T. Imgrund, Jr., spec-  
ial messenger; Henry Anderson, jan-  
itor; Christine Sandberg, charwoman.

In addition to this four railway  
mail clerks are paid at the Brainerd  
office.

## PLAY WADENA OCT. 3

Little Falls High School Football Team  
Maps Out its Season's  
Schedule

The Little Falls high school foot-  
ball team, says the Little Falls Tran-  
script, will open its 1914 season Sat-  
urday with a game against the Wade-  
na high school at the fair grounds.  
A large squad has been turning out  
daily for practice and the outlook for  
a strong team this season is good.  
Wadena has usually managed to turn  
out a fast team in the past and the  
contest should be hard fought. The  
local team will average about 156  
pounds.

Several other games have been ar-  
ranged for and a schedule is gradu-  
ally being made up. Following is the  
schedule as far as arranged, including  
five games.

Oct. 3, Wadena at Little Falls.  
Oct. 10, Aitkin or Elk River on  
their grounds.  
Oct. 17, Brainerd at Little Falls.  
Oct. 30, Wadena at Wadena.  
Nov. 17, Brainerd at Brainerd.

Efforts are being made by M. W.  
Zipoy, coach and manager of the high  
school team, to secure other games,  
and especially to get one with the St.  
Cloud high school. The Granite City  
school, however, has not arranged a  
schedule as yet and is unable to set a  
date. The local team's season will  
probably wind up about the middle of  
November.

## "Through The Flames"

Posed by Herbert Rawlinson  
and Anna Little

As the scenes develop show-  
ing this sensation, power-  
ful incident, the spectator  
is held fast in the iron grip  
of suspense and interest.

One is shown what these young "fire eaters" of the big cities  
really have to go up against—the dangers they face, the awful  
risks they take in protecting the lives and property of the citi-  
zens. It is all a lesson in heroism, unselfishness and regard for  
duty.

For a moment the two maintained attentive silence.

A sly whisper troubled the silence, a little flutter of sound from far across the waters. Gradually it gathered volume, became recognizable as the hiss of cautious oars.

"I'm going away from here," Mr. Barcus announced guardedly, and gathered his legs under him preparatory to rising.

"Half a second," Alan Law insisted, rising in turn and grasping the other by the arm. "They've got to land—haven't they?—and leave the boat while they look for us. Well, then, what's to prevent our hiding in the dunes and—?"

In the next breath, "Look out!" he shrieked.

With no warning whatever, and within fifty feet of them, a ghastly flare broke out in full blaze on the surface of the water, revealing the shape of a dory which had drawn in unseen under cover of the profound darkness, and at the same time discovering to its occupants the two startled figures on the beach.

Before they could stir the weird light glimmered on a polished weapon in the bow of the boat, a spiteful tongue of reddish flame spat out, and bullet sang between Messrs. Law and Barcus, and with a sad thud of disappointment buried itself in the sands of the wave-erect bluff behind them.

Like twin automatons stirred to action by the report, the two turned and pelted off down the beach, to escape that deadly area of illumination.

Other shots sped after them, but none was so well aimed, and presently, finding a break in the bluff, they swung off into the grateful shelter of the night-wrapped dunes.

Meantime the dory had grounded on the beach, and its several occupants—four or five of them, all men, apparently—jumping out, set off in pursuit of the fugitives, following the tracks in the sand.

The blackness of the night, however, conspired with the savage labyrinth of the dunes to save Alan and his companion.

Within another five minutes—while still the pursuit floundered and blundered at random a round quarter-mile to the south—Mr. Law and Mr. Barcus were noiselessly squirming on their bellies, like two snakes in the beach-grass, up the back of a ten-foot bluff.

And presently from its brow they looked down on the spot where the dory lay, only its bow out of water, its stern afloat, under armed guard.

Very slowly and stealthily Alan got to his feet and swung back over his shoulder a heavy club of driftwood.

A match spluttered beside the dory and flamed in the still air, relieving with its reddish glow a bronzed and evil visage.

The guard puffed fast and had the tobacco well aglow when the sky took advantage of his trustfulness and fell upon him like an avalanche.

Simultaneously Alan and Barcus descended the face of the bluff in two

miniature landlides, dug themselves out, and by the time the dazed and disarmed guard had sufficiently recovered to cry out for help the dory was a hundred yards off the beach and making excellent time in the direction of that lonely green light.

They wrought with the oars like men possessed, yet with a machine-like precision that drove the boat fast and furiously—without attempt to still the splashing of their blades. Concealment of their purpose from those who remained aboard the schooner was out of the question. The shouts, the shots, the play of flashlamps along the beach—as though Bedlam had loosed half a dozen lunatic will o' the wisps upon the holy peace of night—must have betrayed the fact that they had turned the tables long before the dory left the inshore shoals.

The commonest precautions, however, made them pause and rest upon their oars while yet a little way from their goal.

Only an ominous silence rewarded the utmost efforts of their straining senses; no sound was audible other than the gentle whine of an ungreeted block; nothing was visible beyond the sinister glare of that almost stationary green lantern.

"What think?" Barcus inquired in a dubious undertone.

"No telling," Alan replied in the same manner. "All a chance."

"You've got that gun handy?"—with reference to the rifle of which they had despoiled the victim of the sky's ill-faith.

"Here."

"Then—let's go to it! Give way!"

A dozen lusty strokes brought them alongside the schooner, and as the dory scraped the waist of the larger vessel the two young men dropped oars, rose, and seizing the low gunwales, lifted themselves to the deck.

### LUCK OF BANGOR SNEE.

A Warning to That Well Known Citizen Who Reads Over Your Shoulder.

The car was crowded, and everybody had something to read. Consequently everybody read the next passenger's periodical.

Let us start with the stout man who was holding a copy of "Hints to Housewives and Mothers." While the messenger boy on the stout man's right almost broke his neck trying to read "Hints to Housewives and Mothers," the stout man himself was absorbed in "The Boy Scouts' Review," the property of the thin lady on the left.

The thin lady, in turn, was craning over to read page 93 of "Caesar's Commentaries," in Latin.

The policeman who owned the commentaries seemed deeply interested in "From Bootblack to White Wing," which lay neglected in the lap of the bank president on his left.

Now, nobody at all happened to be sitting on the other side of Mr. Snee, so, as he was already familiar with "From Bootblack to White Wing,"

there was nothing for him to read. So he stared at the car advertisements, all unaware that if he had but glanced at his "Evening Disburser" his eye would have lighted on this personal: "If Bangor Snee will correspond with Half & Half, executors of the will of his uncle, who died intestate in Potomac, leaving \$9,000,000, he will hear of something to his advantage."

But, of course, as it never occurred to Bangor Snee to glance at his own paper, he remained a comparatively poor man.—New York Times.

## POLITICS ENTERS RIVER BILL DEBATE

Both Parties Hope to Make Capital Out of Measure.

### PRESIDENT MAY VETO IT.

Republicans Fear the Outcome and Assert That There Is No Democratic Party, but a Wilson Party—Men From Western States Do Not Worry Over Reductions in Waterway Bill.

By ARTHUR W. DUNN.

Washington, Sept. 30.—[Special.]—Men who so vigorously opposed the river and harbor bill studied carefully the political question involved. It was suggested to them that it was better Republican politics to let the bill pass after they had fought it so long and given it such a bad name than to filibuster it to death.

"But Wilson may decide to make some political capital out of it and veto it after it has passed," was the reply. "He cares nothing about individual Democrats, and he has come to the conclusion that there is no Democratic party in this country, but a Wilson party. He is catering to that party, using for the time being the Democratic name where it works best."

### Like Old Times.

That remark sounds like old times. How many times we heard the assertion in congress and elsewhere: "There is no longer a Republican party. Nothing is left of the G. O. P., but a Roosevelt party." Republicans as well as Democrats made that assertion. And in a quiet way, not for publication, there are Democrats who now make the same claim. They are Democrats who are disappointed with Wilson, but have not yet reached the stage of publicly opposing him.

### They Did Not Worry.

Democrats from the western states, Nevada, Arizona, Colorado, Montana and Nebraska, as well as some of the adjoining states, did not suffer much while the filibuster was going on against the river and harbor bill. There was not much in it for them. Besides, many of them think their section has not been treated any too well by the present congress.

### Political Reminders.

Senator Borah of Idaho went to Maine to speak for the Republicans; Senator Lewis of Illinois was opposed to Roger Sullivan for the Democratic nomination in his state. Lewis came forward first in a running debate in the senate and referred to the campaigning of Borah, saying that when he went to Maine the state had a Republican governor, but since his efforts there would be a Democratic governor.

"I am not entirely crushed by that reference," remarked Borah, "especially when I remember the aggressive campaign of the senator from Illinois against Roger Sullivan."

"In that event I was not able to lift up my voice," said Lewis.

"In a question of voice I would not compete with my friend from Illinois," was Borah's parting shot.

### Admitting His Honesty.

"One of the senators opposing the river and harbor bill," said J. Hampton Moore of Pennsylvania, "made a strange admission the other day while making his filibustering speech. He said, 'I believe there are senators here as honest as I am.' I mentioned this to members of his delegation in the house, and they said that it was a strange admission for that particular senator to make."

### Caused a Ha, Ha.

"The rules of the senate should be enforced," vociferated Senator Stone of Missouri, and everybody smiled. The rules of the senate are of such a peculiar character that to enforce them literally would probably prevent the senate from doing business. Once Senator Jones of Washington was displaced and sat still and demanded the enforcement of the rules on everything. He had senators begging him to let up in order that business could be transacted. The senate rules are a joke.

### Burton's Knowledge.

"Burton is making a strong speech on the river and harbor bill," remarked a senator during the filibuster. "He thoroughly understands the subject."

"He ought to know," was the reply of an old timer. "He has prepared many river and harbor bills scientifically."

"Scientifically?" repeated the senator, with a rising inflection.

"Yes," was the reply; "scientifically, so that they were sure to receive votes enough to insure their passage."

### Makes 'Em Sore.

Senator du Pont of Delaware had been away for months, but returned about the time there was such a fuss about a quorum. The first day he was there he made the point of no quorum.

"Now, what do you think of that for nerve?" asked a disgruntled Democratic senator. "Du Pont has not been here for months, and yet he breaks in with a no quorum point as soon as he turns up."

That happened in the house, too, and it made a lot of the fellows sore who had been here all the time and letting their campaigns run without their assistance.

Now, nobody at all happened to be sitting on the other side of Mr. Snee, so, as he was already familiar with "From Bootblack to White Wing,"

there was nothing for him to read. So he stared at the car advertisements, all unaware that if he had but glanced at his "Evening Disburser" his eye would have lighted on this personal: "If Bangor Snee will correspond with Half & Half, executors of the will of his uncle, who died intestate in Pottsville, leaving \$9,000,000, he will hear of something to his advantage."

But, of course, as it never occurred to Bangor Snee to glance at his own paper, he remained a comparatively poor man.—New York Times.

## POLITICS ENTERS RIVER BILL DEBATE

Both Parties Hope to Make Capital Out of Measure.

PRESIDENT MAY VETO IT.

Republicans Fear the Outcome and Assert That There is No Democratic Party, but a Wilson Party—Men From Western States Do Not Worry Over Reductions in Waterway Bill.

By ARTHUR W. DUNN.

Washington, Sept. 30.—[Special.]—Men who so vigorously opposed the river and harbor bill studied carefully the political question involved. It was suggested to them that it was better Republican politics to let the bill pass after they had fought it so long and given it such a bad name than to filibuster it to death.

"But Wilson may decide to make some political capital out of it and veto it after it has passed," was the reply. "He cares nothing about individual Democrats, and he has come to the conclusion that there is no Democratic party in this country, but a Wilson party. He is catering to that party, using for the time being the Democratic name where it works best."

Like Old Times.

That remark sounds like old times. How many times we heard the assertion in congress and elsewhere: "There is no longer a Republican party. Nothing is left of the G. O. P. but a Roosevelt party." Republicans as well as Democrats made that assertion. And in a quiet way, not for publication, there are Democrats who now make the same claim. They are Democrats who are disappointed with Wilson, but have not yet reached the stage of publicly opposing him.

They Did Not Worry.

Democrats from the western states, Nevada, Arizona, Colorado, Montana and Nebraska, as well as some of the adjoining states, did not suffer much while the filibuster was going on against the river and harbor bill. There was not much in it for them. Besides, many of them think their section has not been treated any too well by the present congress.

Political Reminders.

Senator Borah of Idaho went to Maine to speak for the Republicans; Senator Lewis of Illinois was opposed to Roger Sullivan for the Democratic nomination in his state. Lewis came forward first in a running debate in the senate and referred to the campaigning of Borah, saying that when he went to Maine the state had a Republican governor, but since his efforts there would be a Democratic governor.

"I am not entirely crushed by that reference," remarked Borah, "especially when I remember the aggressive campaign of the senator from Illinois against Roger Sullivan."

"In that event I was not able to lift up my voice," said Lewis.

"In a question of voice I would not compete with my friend from Illinois," was Borah's parting shot.

Admitting His Honesty.

"One of the senators opposing the river and harbor bill," said J. Hampton Moore of Pennsylvania, "made a strange admission the other day while making his filibustering speech. He said, 'I believe there are senators here as honest as I am.' I mentioned this to members of his delegation in the house, and they said that it was a strange admission for that particular senator to make."

Caused a Ha, Ha.

"The rules of the senate should be enforced," vociferated Senator Stone of Missouri, and everybody smiled. The rules of the senate are of such a peculiar character that to enforce them literally would probably prevent the senate from doing business. Once Senator Jones of Washington was displeased and sat still and demanded the enforcement of the rules on everything. He had senators begging him to let up in order that business could be transacted. The senate rules are a joke.

Burton's Knowledge.

"Burton is making a strong speech on the river and harbor bill," remarked a senator during the filibuster. "He thoroughly understands the subject."

"He ought to know," was the reply of an old timer. "He has prepared many river and harbor bills scientifically."

"Scientifically?" repeated the senator, with a rising inflection.

"Yes," was the reply; "scientifically, so that they were sure to receive votes enough to insure their passage."

Makes 'Em Sore.

Senator du Pont of Delaware had been away for months, but returned about the time there was such a fuss about a quorum. The first day he was there he made the point of no quorum.

"Now, what do you think of that for nerve?" asked a disgusted Democratic senator. "Du Pont has not been here for months, and yet he breaks in with a no quorum point as soon as he turns up."

That happened in the house, too, and it made a lot of the fellows sore who had been here all the time and letting their campaigner run without their assistance.
